

Pricelist 2022 in EUR

Here you can check our prices for diving, equipment and courses. Official currency in Croatia is Kuna (HRK), so prices in Eur are quoted as a guide as depend of a daily exchange rate that is approximately 7,5 HRK for 1 Eur.

Please to note that your first dive has to be on our house reef (from the shore). As we have mostly wall dives it's important to get confident with bouyancy and get used to different types of gear. This is important for your safety. Considering your dive experience and time since your last dive we might require a check or refresher dive.
